# Engaging & Communicating with "Hard-to-Reach" Populations Public Health Communications Webinar Series

June 25, 2019

### Webinar Objectives

- Identify challenges to engaging "hard-to-reach" communities around public health issues
- Highlight the importance of leveraging cultural competency, diversity, and inclusion to develop messaging that is relevant to such communities
- Share best practices and success stories for connecting with "hard-to-reach" populations

## **Agenda**

- · Overview: "Hard-to-Reach" Populations
  - Kim Rodgers, Communications Manager, NACCHO
- Case Study: Public Health Seattle & King County
  - Robin Pfohman, Community Resilience + Equity Program Manager
- Case Study: San Diego County Health and Human Services
  - Justine Kozo, Chief, Office of Border Health, Public Health Services Division

## Understanding Who's "Hard-to-Reach"

- · "Hard-to-reach" is a term used to describe groups of the population that may be difficult to communicate with or involve in public health programming, such as:
  - Racial or ethnic minority groups
  - Undocumented or immigrant populations
  - Diverse language communities
  - People living in rural communities
  - Individuals with low health literacy skills
  - People experiencing homelessness
  - Older adults and aging individuals
  - Physically- and neuro-diverse individuals (i.e., people with functional/access needs)
  - People experiencing social and economic inequities

## Challenges to Engagement

- Language and translation barriers
- Barriers to information access
- Governmental fear or mistrust
- Difficulty locating or accessing community groups
- Agency staff not always reflective of communities served
  - Lack of cultural responsiveness

## Framework for Engagement

- Listen and learn. Don't start off asking anything of the population you hope to engage.
- **Build trust.** Make sure you establish trusting relationships with communities.
- **Prioritize community assets.** Focus on the community's strengths, rather than on their deficits.
- **Develop partnerships.** Partnerships can be a gateway to reaching populations impacted by health inequities.
- View the population as experts. Let the community you're working with know that you recognize they are the experts.

## Importance of Engagement

- Everyone has a right to know about issues and risks related to their health and well-being
- Culturally appropriate information can help people make informed decisions to reduce health risks
- Action taken by individuals, families, and communities is key to controlling the public health threat/problem

### A terrible lesson

An unidentified man is comforted Monday outside a home where four family members -- a father, mother and two sons -- were found dead, likely of carbon monoxide poisoning, in Burien. Photo: Dan DeLong/Seattle Post-Intelligencer

### Swine flu

## Big Mistake!!

# Iska ilaali Hargabka (Doofaarka!)

Sida ugu wanaagsan ee aad isaga ilaalin karto hargabka doofaarka, oo sidoo kale loo yaqaano Hargabka H1N1, waa tallaalka hargabka H1N1. Waxay si gaar ah muhiim ugu tahay dadka ay u badan tahay in ay u xannuunsadaan ama xataa cusbitaalka loo dhigi karo haddii hargabkani ku dhaco:

- Haweenka uurka leh
- Dhallaanka iyo Carruurta yaryar
- Dadka qaba xannuunada muddada dheer sida macaanka, neef-qabatowga iyo wadne xannuunka.

La xidhiidh dhakhtarkaaga ama xannaanada caafimadkaaga si aad u hesho tallaalka H1N1.

Haddii aad u baahan tahay macluumaad dheeraad ah ama aanad lahayn cid bixisa xannaaao caafimad, booqo www.kingcounty.gov/health/H1N1 ama soo wac Khadka telefoonka hargabka ee 877-903-5464 inta u dhaxaysa 9 a.m. iyo 5 p.m., Isniin ilaa Jimce. Si aad u hesho tarjumaan, fadlanaku jir telefoonka kadib salaanta, una sheeg luqadaada kalkaalisada caafimad. Tarjumaan ayaa soo geli doona khadka (wakhti in aad sugto ayaa dhici karta).

"Waxaan helaynaa tallaalkii H1N1. ka Waxaana la ii xaqiijiyay in aan ogaado in aan difaacayo reerkayga."

# Understanding communication channels in the Somali community

Research aim: To identify a mechanism to test & disseminate emergency messages in the Somali population

#### **Public Health**

- 1. Preparedness Section
- 2. Communications Team
- Communicable Disease/Epidemiology Program

Mohamed Aden Ali, MPH Local Somali community health leader (and now Public Health Employee!

# Quarterly meetings

# Community Health Board Model

- Health beliefs

Somali

Community

### **Somali Health Board**

Health Care and Governmental Systems

· Identifies community priorities

- Provides health education and services
- Builds health and leadership capacity
- Advocates for policy and system change

Outcome: 

Health equity community resilience

### And then...

- Health Education
- Policy and Systems Change
- Centering Pregnancy
- Somali Childcares
- Community-Based Participatory Research

# Even soccer

# Another storm, a different outcome

# A more resilient community

Replicating the model

# Opportunities for local public health

- Recognize existing capacity and expertise
- Build long term relationships
- Don't have a predetermined agenda
- Provide capacity building support
- Leverage the credibility of your institution
- Connect to other health system partners
- Not just a job, doesn't happen during office hours
- Be aware of your privilege
- Being willing to step out of the way and let go

# EMERGENCY RISK & PUBLIC HEALTH COMMUNICATION

# UTILIZING A PARTNER RELAYTO SHARE INFORMATION WITH LIMITED ENGLISH PROFICIENT POPULATIONS

Justine Kozo, MPH
Chief, Office of Border Health
Health and Human Services
Agency County of San Diego

### PRESENTATION OVERVIEW

- Overview of San Diego and risk communication challenges
- Development of the "Partner Relay"
- Current activities, challenges & lessons learned
- Future directions & next steps
- Questions

### SAN DIEGO

- ♦3.2 million residents
- ❖34% Latino population
- Busiest border in the world
- Tourist & refugee destination
- Culture & language diversity

# DEFINING THE CHALLENGE

- Prone to disasters
- Vulnerable communities
- Can't rely on automated translation systems
- ❖ Live Well San Diego Living Safely: Committed to supporting communities so that they are resilient to disasters & emergencies
- Collaboration between HHSA, Public Health Services & Public Safety Group, Office of Emergency Services

# EMERGENCY RISK COMMUNICATION FORUM MAY 28, 2013

- ♦ Held a one-day forum in 2013
- Invited community leaders & members representing the following communities:
  - Latino, Vietnamese, Filipino,
    Chinese, Korean, Arabic, Somali
    and Karen
- Provided simultaneous interpretation in all languages
- Conducted focus groups

# SAMPLE FOCUS GROUP QUESTIONS:

During an emergency...

- How do you receive information?
- What is your preferred communication method?
- Who are trusted sources of information in your community?
- What have been barriers to receiving information in the past?

# 5 THEMES IDENTIFIED ACROSS GROUPS

- Trusted Communication Sources
- Community Connectedness
- Media Outlets
- Language and Literacy
- Trust in County or otherGovernment Authority

### TRUSTED COMMUNICATION SOURCES

- Social networks
- Youth
- Schools
- Red Cross
- Community & faith-base organizations

### **MEDIA OUTLETS**

### Commonly Identified:

- ❖ Radio
- ❖ Television
- Social media

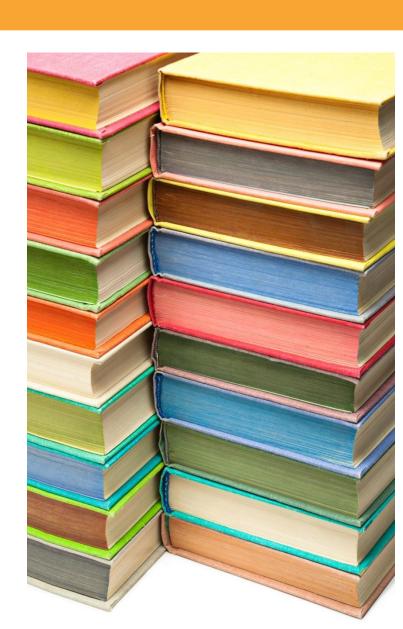

### Social Media and Access:

- Great for youth
- Little content related to public health or preparedness

### LANGUAGE AND LITERACY

- English proficiency
- Multiple dialects
- Varying literacy levels
- Word of Mouth

#### TRUST IN COUNTY OR OTHER GOVERNMENT AUTHORITY

- Varying degrees of trust
- Government seals/symbols (local and federal)
- Schools
- How this impacts public messaging and evacuations

#### SUGGESTIONS & RECOMMENDATIONS

- Utilize existing networks
- Partner with TV and radio stations (when available) and trustedCommunity Based Organizations

### FORUM FOLLOW UP & ONGOING COMMUNITY ENGAGEMENT

Fall 2013: Feedback Sessions

Recommendation:
Build a Partner Relay

### BUILDING A PARTNER RELAY

#### **Activities to Date:**

- One-on-one meetings
- Presentations
- Trainings for communitybased agencies
- Drills
- Language Champions
- Evaluation

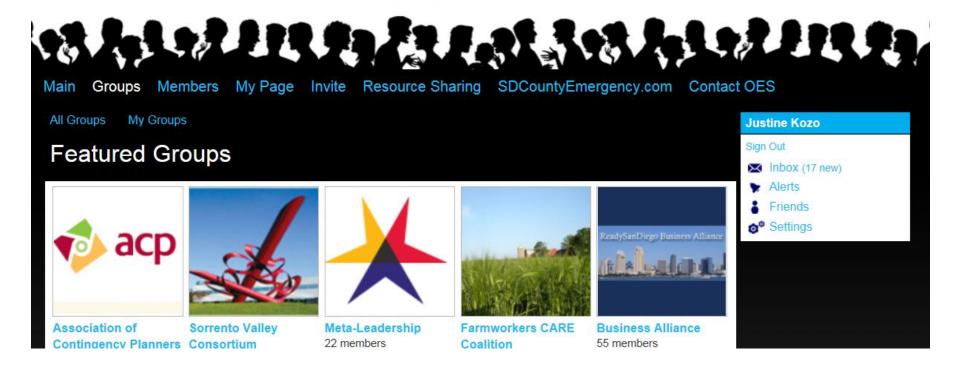

### FIRST COMMUNICATION PLATFORM

#### ReadySanDiego - Partner Connection

**Connecting Private Partners with Emergency Networks** 

### DRILL COMMUNICATION EXAMPLE

### NEW COMMUNICATION PLATFORM - SLACK

### TRAININGS THREE TIMES PER YEAR

#### SAMPLE AGENDA

- Wildfire prevention & earthquake preparedness
- Childhood Lead Poisoning Among Refugees
- Law enforcement & emergency evacuations
- Communicating during emergencies
- Hands-on Partner Relay sign up

#### PARTNERSHIP WITH COMMUNITY AGENCIES

### WHAT WE ASK OF PARTNERS

- ❖Join our Partner Relay
- Designate someone within your organization to be the point person
- Share pertinent information during emergencies

### WHAT WE OFFER PARTNERS

- Updated, vetted information during emergencies & pertinent public health & emergency preparedness monthly information/messages
- Two-way communication with the liaison in the Emergency
   Operations Center during emergencies
- Trainings on important public health and emergency information

#### **2017 LILAC FIRE**

- 12/7/2017 Emergency Operations
   Center activated at the highest level
- Partner Relay activated
- Direct outreach to North County Partners
- Examples of inquiries
  - Evacuation Route
  - Spanish TV coverage
  - Shelter information

#### RESULTS

- ❖ 24 Hour coverage, 12/7-12/11
- 46 emergency messages in total sent to over 400 individuals
- Other messages sent acknowledging shift transitions, sharing other types of resources (websites, sdemergency app., 211) and appreciation messages

### CHALLENGES & LESSONS LEARNED

slack

- Original Platform was not optimal
  - Partners suggested a NEW communication platform
- Low participation on drills
- Google translation
- Need for constant community engagement
- Improve branding "Partner Relay"

#### **BUILDING A PARTNER RELAY**

- ❖13 Public Health & Emergency Preparedness Trainings
  - ♦ (May 2015-June 2019)
- **❖471** individuals representing trusted CBOs receive our messages
- \*87 Individuals have joined the new SLACK communications
- platform (January 2018-present)
- ❖9 Language Champions
- ♦6 drills
- ❖2 Emergency & Public Health Preparedness resources shared via SLACK with partners per month
- Activated Partner Relay twice during real emergencies

#### **NEXT STEPS**

- Program evaluation & quality improvement:
- Transition 300+ individuals to new SLACK platform
- Ongoing collaboration with Language Champions
  - Increase # of Language Champions
- Ongoing trainings at minimum 3 times per year
- Ongoing SLACK training & drills
- GROW the Partner Relay (other geographical regions)
- 2021 Hold another Community-wide forum
