RESOLUTION NO.: 2016-165

SPONSOR: Mr. Pry, Council of the Whole

DATE May 9, 2016 COMMITTEE Committee of the Whole

A Resolution adopting a Health in All Policies approach that systematically takes into account the health implications of decisions in order to improve population health and health equity, for the Executive and Council, and declaring an emergency.

WHEREAS, the County of Summit and its residents face a growing burden of largely preventable chronic illnesses such as heart disease, stroke, cancers, mental illness, substance abuse, chronic obstructive pulmonary disease (“COPD”), obesity and diabetes; and

WHEREAS, the burden of chronic illness and life expectancy vary significantly across neighborhoods, communities, and populations, often based on race, ethnicity, gender, age, religion, disability, or sexual orientation; and

WHEREAS, even relatively well-off Summit County residents who do not smoke and are not overweight tend to experience inferior health in comparison with like persons in other wealthy countries, affecting all age groups for multiple diseases, injuries, and both biological and behavioral risk factors; and

WHEREAS, people in disadvantaged communities often have fewer resources for health, which is reflected in significantly higher burdens of chronic illness, worse health outcomes, and shorter life expectancies; and

WHEREAS, the health and well-being of all people is a critical element in supporting a healthy and prosperous County of Summit, including economic sustainability, increasing workforce participation and productivity, and slowing the ongoing rise in medical care expenditures; and

WHEREAS, the physical, economic, and social environments in which people live, learn, work, and play influence the adoption of healthy lifestyles by making it more or less difficult for individuals to choose behaviors that promote or diminish health; and

WHEREAS, these environments are significantly influenced by policies developed by Summit County Council and various County departments and offices relating to food access, housing, transportation, education, air quality, public safety, parks, criminal justice, employment, economic development, and other policy areas; and

WHEREAS, creating and sustaining healthy communities requires collaboration among government agencies, businesses, and community-based organizations; and
RESOLUTION NO. 2016-165

PAGE TWO

WHEREAS, strategies to create healthy communities provide shared benefits by simultaneously supporting improved air and water quality, protecting natural resources and agricultural lands, increasing the availability and affordability of housing, improving infrastructure systems, and planning sustainable communities; and

WHEREAS, tools such as community-wide assessments and health impact assessments exist for identifying physical, economic, and social barriers to health improvement and for measuring the impact of policy decisions on these barriers, and

WHEREAS, identified health issues can best be addressed through collaboration and integrated environmental, social and health improvement policies; and

WHEREAS, the Health in All Policies approach uses health as a linking factor in bringing people together from across sectors to address major societal issues, focus on shared benefits, and develop win-win strategies, and

WHEREAS, the Health in All Policies approach is an integrated approach to achieve better health outcomes and greater sustainability by incorporating a health aspect into policy development across all sectors of the community, both public and private; and

WHEREAS, this Council finds and determines, after reviewing all pertinent information, that it is necessary and in the best interest of the County to adopt a Health in All Policies approach to decide all policy decisions;

NOW, THEREFORE, BE IT RESOLVED, by the Council of the County of Summit, State of Ohio, that:

SECTION 1

This Council hereby adopts a Health in All Policies approach to systematically take into account the health implications of decisions in order to improve population health and health equity. Further, this Council encourage all public officials, community and business leaders to adopt a Health in All Policies in their policy decisions.

SECTION 2

This Resolution is hereby declared an emergency in the interest of the health, safety, and welfare of the citizens of the County of Summit and for the further reason of immediately implementing a Health In All Policies approach to ensure the health and safety of all Summit County residents.
RESOLUTION NO. 2016-165

SECTION 3

Provided this Resolution receives the affirmative vote of eight members, it shall take effect immediately upon its adoption and approval by the Executive; otherwise, it shall take effect and be in force at the earliest time provided by law.

SECTION 4

It is found and determined that all formal actions of this Council concerning and relating to the adoption of this Resolution were adopted in an open meeting of this Council, and that all deliberations of this Council and of any of its committees that resulted in such formal action, were in meetings open to the public, in compliance with all legal requirements, including Section 121.22 of the Ohio Revised Code.
