

## Implement Evidence Based Practices

- Local worksites have cancer prevention policies and systems

## Metrics:

- \# of new cancer prevention worksite policies/systems in place as result of the Cancer Control and Screening Program
- \% of Colorectal Cancer Toolbox elements adopted at provider offices working with the Cancer Control and Screening Program
- \% of Colorectal Cancer Toolbox elements in place at provider offices 12 months following the completion of work with FCCHD (Sustainability)

## Cancer Control and Screening

- Reduce number of cancers
diagnosed in Region 1
- Reduce cancer related health disparities in Medicaid population

## Metrics:

- Percent of diagnosed patients enrolled in Medicaid
- Number of breast, cervical, and colorectal cancer diagnosis in Region 1

## Cancer Screenings:

- To increase the knowledge on and the number of Region 1 residents completing the recommended breast, cervical and colorectal cancer screenings

## Metrics:

- Ratio of new Cancer Screening program participants vs. re-enrolled participants
- Adherence rate of colorectal card screenings
- \% of Native American participants screened (as relative to the Flathead County Native American goal for the grant year)

## Patient Advocacy <br> - Link diagnosed patients to care

## Metrics:

- Percent of diagnosed patients enrolled in Medicaid
- Number of MOUs in place to treat patients diagnosed with colorectal cancer

Program
Core Activity

## Promote Community Involvement

- The community participates in promoting a tobacco-free Flathead County

## Metrics:

- Number of community partners that participate in Days of Action
- Number of "other" events with community partners participating
- Number of people attending events and presentations

## Tobacco Use Prevention

- Reduce tobacco use in Flathead County

## Metrics:

- Prevalence of tobacco use among adults
- Prevalence of tobacco use among youth

## Prevent Tobacco Use among Young People

- Educate and empower youth to make good choices related to tobacco

## Promote Quitting

- Increase number of calls to the Quit Line and ensure people are aware of cessation resources

## Metrics:

- Percent of total Quit Line calls from Flathead County

Program
Core Activity

## Planning:

- Staff and community partners understand their role when responding to a public health emergency

## Metrics:

- Percent of response plans and procedures reviewed every fiscal year

## Public Health Emergency Preparedness

- Respond to events impacting local public health through planning, assessment, and development of critical capacities

## Metrics:

- Percent grant deliverables completed quarterly

## Training:

- Staff and community partners are trained to respond to a public health emergency

## Metrics:

- Percent of staff having completed ICS 100, 200, and 700
- Percent of staff having completed ICS 300 and 400
- Percent of staff and community partners that have completed annual training on Emergency Medical Countermeasures

## Response:

- Staff and community partners demonstrate response skills when responding to a public health emergency

## Metrics:

- Number of key community partners participating in a tabletop or functional exercise
- Percent of community response partners complying with quarterly call-down drills

## Corrective Action:

- Staff and community partners improve response to a public health emergency

## Metrics:

- Percent of After Action Reports completed for every emergency preparedness related event
- Percent of AARs completed in one month from completion of an event
- Percent of corrective action items completed within the allotted timeframe

Program
Core Activity

## Safe Kids Safe Communities

- Increase awareness about the benefits of seatbelt usage

## Enforcement

- Support enforcement through adequate equipment and policies

Metrics:

- Percent of law enforcement cases that meet minimum requirement for DUI convictions
- Number of policy makers contacted regarding primary seat belt law
- Increase the correct usage of child restraints
- Reduce the number of alcohol related traffic crashes

## Metrics:

- Increase the correct usage of child restraints
- Number of alcohol related traffic crashes

## Provide Education:

- Flathead County residents have knowledge of how to live safely

## Metrics:

- Number of car seat technicians certified
- Number of car seats checked
- \% of helmets distributed with education
- Number of schools participating in a young drivers campaign
